### Comment text:

Regarding the proposal of Wick, for Wychavon representation, being moved from the Fladbury ward to the Pershore ward. Wick is a rural village and is a conservation area with a population of 365. Pershore is a town with a population of 7,255 and the base of many businesses and retail outlets. Two entirely different communities with entirely different needs. Why would it make any sense for Wick to be moved from the current Fladbury ward to the Pershore ward? Wick is far more aligned with the Fladbury ward being a rural area with similar issues to the Fladbury ward. Does somebody stand to gain financially from the change without a care of the actual residents of Wick and their own opinions, ideals and needs? Forgive the cynicism but someone is going to gain from this proposal if it goes through and it will not be Wick and the residents of the rural village.
