Organisation Name:

### Comment text:

Three Councillors is too few at the present time. With the increase in population no plan to take note of the increasing pressure of the social infrastructure. No adequate supermarkets, no increase in capacity of health care as far as surgeries or dental facilities have been thought out, school intake ignored. Pershore is not coping at the moment. Abandoned housing in the centre of town and one pharmacy that cannot cope with supply so that I as a 75 year old has to go to Worcester to collect. The present Councillors just say that all of this is not their problem? I think more Councillors would just add to the problem as they only seem to be able to promote hair brained schemes such as the cycleway off Station Road that nobody cycles along or the plan to convert Broad Street into a pedestrian only area.
