With reference to the proposals for Evesham: I agree that the ward in which I live should be called Hampton not "The Hamptons"; I also agree that the Fairfield area is a discrete identity. I was one of the three District cllrs for this part of Evesham between 1994 and 2002 when it had been split into two wards so the same problem had to be attended to by at least two different cllrs from two different wards leading to a weakening in impact and duplication of resources; I also agree that the Thistledown and Charity developments ought to join Hampton as entities for the sake of electoral equality of numbers: I would draw the ward boundary from the river bridge due south up the centre of Cheltenham Road deviating only to take in the Charity and Thistledown estates.
