Comment text:

Wick is a thriving community with many community groups and if it were to join Pershore ward would be poorly represented. Wick has 4 working farms unlike the town of Pershore and being a conservation area Wick village has much more in common with the neighbouring villages of Crophorn, Fladbury and The Combertons. I do not wish the village of Wick (population 365) to join Pershore ward (population 7,255) as Pershore does not represent the rural community of Wick which has many community groups targeted to its particular needs.
