Comment text:

If it is necessary to resolve new boundaries within Tonbridge & Malling I would like to make the following suggestion for the creation of a new Ward in the rural area of the Borough. It has been suggested that the village of Mereworth is associated with Kings Hill to create a new Ward, the trouble with this suggestion is that Kings Hill is a new build village that has no association with Mereworth, yet some time ago the villages of Mereworth, West Peckham and Hadlow were a Borough Ward, at the last Boundary Review, the village of East Peckham was added and Mereworth removed! If the aim is to create Wards that not only have the correct number of electorate to Councillor representation and also achieve a reduction in total Councillor members, then my suggestion would be create a Ward including Mereworth, Hadlow, West Peckham and East Peckham, this would create a natural grouping of villages that have an historical relationship. Please would you give my suggestion careful consideration. I will refrain from commenting on the other possible propositions regarding other Ward changes as they will not affect me directly.
