Comment text:

Would prefer to see a more involved and systemic review in order to see both Lancashire County Council and Whitworth Town Council dissolved as I have difficulty seeing what useful purpose they serve. I pay council tax to Whitworth Town Council, Lancashire County Council and Rossendale Borough Council, with the associated layers and layers of administrators. Rossendale Borough Council should become a unitary authority in the first instance where at some short time in the future all local government is completely reorganised to ensure decision making is made and therefore representatives is at a much lower 'community level' The proposals do little from what it appears to me to be a 'rearrangement of the existing deck chairs'. However, at least something is being undertaken to look at what has been in existence for far too long. I support the proposals.
