

## Stockton-on-Tees Borough Council

### Personal Details:

I support Plan 'B' and wish the area in which I live to remain as Fairfield. I have lived in Hartburn and now Fairfield all my life and both my parents and grand parents were brought up in Fairfield. I use all the local shops on Upsall grove and Rimswell Road and I believe they are used regularly by the local residents as they are well kept establishments unlike some areas of Stockton. I honestly believe that over the years areas close to Grangefield i.e. Oxbridge have suffered and too be honest it is worrying to think of my children growing up close to the drink and drug problems which are apparent and getting worse each year, I am glad I am in a car and only drive through Oxbridge but you see these people on drugs or are drunk stopping innocent people and harassing them for money etc. I also believe not having a councillor looking after Fairfield will have a negative effect on the area especially the nicer well kept areas of Stockton i.e. Hartburn and Fairfield. People do not want to be associated with areas such as Oxbridge as they know the house prices may be affected in a negative way and this may lead to local people moving out of this area.
