

**Stockton-on-Tees Borough Council****Personal Details:**

As a resident of [REDACTED]; myself, family and neighbours strongly object to the proposed changes for our area to become Newtown. I've lived in Grangefield for 25+ years and do not want to be moved out of the area. I cannot see the benefit for myself and my family, in fact this causes me great concern particularly regarding the devaluation of our properties, school catchments for my children, voting and the association with Newtown. We chose to live in the Grangefield area as an investment for ourselves and growing family and feel this jeopardises that.
