

Stockton-on-Tees Borough Council

What happened to the Fairfield North and Fairfield South proposal? After seeing the first plan last year with the proposed introduction of Fairfield North and South Wards on which seemed like a good idea as it finally brought back in some of the major streets and roads back within Fairfield wards. The new plans proposing to move Orchard Road, Whitton Road and the offshoots into the Grangefield ward again will be frustrating for residents and neighbours. I have lots of friends within this area and they are confused as to why they would be put back in to the Grangefield Ward when they live in the Fairfield area. It is simply baffling and will lead to further confusion with who are the local councillors. If you live in any of the roads mentioned and ask for the local councillor they will be directed to a Grangefield Councillor in future which doesn't sit well with myself or other residents. I hope you consider either including them back within a Fairfield ward or leave hundreds of residents baffled as to why they have been put back within the Grangefield Ward. I hope that all considerations are made with the public in mind as this current plan will let a lot of people down. Many thanks, [REDACTED]
