To The Review Officer (Stockton-on-Tees)

I am writing to you to give feedback on the proposed boundary changes in the Grangefield and Fairfield wards and I support plan B.

I would definitely like to be included in the Fairfield ward and represented by 2 councillors. I live [REDACTED], and have done so for over 50 years. My 4 children have all attended Fairfield schools and I have attended Fairfield churches.

A Fairfield bus service stops outside my house and if this was ever to change (or be at risk) this could have a hugely detrimental effect on my independence.

I am hugely concerned that house values may be adversely affected in the area, something which could cause me financial angst in the future.

Finally, the most important point to me is that I believe Plan B delivers the fairest balance to the residents of both wards due to the numbers of people who live in them. This in turn delivers a more democratic solution to all inhabitants of the area.

I would welcome a response from one of your team at your earliest convenience.
