### Comment text:

I object most strongly to the proposed boundary changes between Kirklevington and Yarm in the Stockton on Tees Borough Council. Kirklevington is an ancient village that has a history dating as far back as the Vikings and is NOT part of Yarm, yet these proposals are dividing off a large part of the village including Kirklevington Grange, and Kirklevington Hall and incorporating them into the Yarm boundary area. The loss of the revenue of the housing estates and the two Halls will reduce revenue for our village. I repeat Kirklevington is not Yarm and Yarm is not Kirklevington both have long separate histories that should be maintained, respected and valued not broken up.
