

**Stockton-on-Tees Borough Council****Personal Details:****Name:****E-mail:****Postcode:****Organisation Name:****Comment text:**

The country is suffering financially because of recent events including but not exclusive to the Covid Crisis, Brexit , mismanaged public spending on contracts etc there is no value to the public or the country in spending money at this time on changing boundaries. What are the financial benefits to making these changes? How much would it cost councils to redraft and rebrand maps etc related to these changes? The country needs to be brought back to a working level, reducing the need for foodbanks etc. Any funding and councils duties should concentrate on putting the country back to work without wasting public funds in unnecessary changes.
