Why is there no mention of Central Drive / Revoe area in on this so called boundaries? Has this area now been forgotten about, despite the deprivation and frustration of the residents in area, of wanting a nicer, cleaner area to live in and also, to be free from possible criminal activities that happen from time to time in this area of Blackpool? Why split Blackpool up in different sections just to confuse people, when you simply could put all resources in one go, from all sides of the town and not think about the needs and concerns of the residents, the council tax payers who do not benefit from anything that this council has to offer, but instead, sorry to say, think only of the tourists, and not the locals opinions and concerns first, instead of diving in feet first and mess everything up as usual. Please explain to us all, with out any technical jargon that no one is going to understand?
