The proposed shift of the Waterloo boundary should shift the other way north back towards Waterloo Road. The streets of Boscombe, Horncliffe, Rosebery and Burlington all geographically have more in common with Squires Gate than Waterloo Road area of the town. Appreciating the fact this is likely to do with re-balancing against the number of domestic properties in the area you should also consider the locality and what they have in common. Instead of moving the Waterloo ward southwards I would reverse and extend the Squires Gate ward north to cover both sides of the road on Horncliffe and also including Rosebery and Burlington, and perhaps a few further streets north so as to include those up to Woodstock Gardens.
