### Comment text:

With a reorganisation on this scale will the councillors be more approachable than they have been?. I live in Wavertree off the High St and off the 3 elected councillors only 1, Mr Cummings seems to be known in the area mainly because he lives in the area but also he is out and about trying to sort problems. If he wins then great but not the other 2 as they are as much use as a chocolate fire guard. I have lived at my current address for 27 years and the other 2 councillors are as far as my belief is that they are quite useless at representing electorates queries. I think having 1 councillor in a smaller demographic would make that councillor more responsible to their rate payers. May i add that i hope this will take into account the nuisance factor of some students and also houses of multiple occupation (HMO) as there are too many of them living in good size family homes, get the students to stay in all the empty student accommodations that have been built and are being built. Overall i think a smaller constituency will allow any competent councillor to do their job properly.
