### Comment text:

The proposals are a gerrymandering mess. Incorporating Picton into "Old Swan West" doesn't make sense, Picton is a completely different area to Old Swan. Separating Tuebrook & Stoneycroft is incorrect as it accurately represents the geographic area, nevermind that the changes would take Newsham Park out of the ward and likely have us precluded from any future consultations on the park. Have you even had any people actually from Liverpool and with knowledge of the city working on these proposals? Clearly not since you've renamed parts of Riverside and St Michael's after the abandoned Festuval Gardens. How are the Waterfront wards going to work? The issues one part of Central has now are going to differ from those faced by Riverside.
