1) I do not agree with some wards electing 2 or 3 councillors, while the majority only elect 1 councillor. This would mean that if you live in some wards you get to elect 2 or 3 councillors, whereas the majority of voters only get to elect 1. How can this be fair or democratic? Surely all wards should have about the same number of voters and elect only 1 councillor each. Then every Liverpool voter would get just one vote each in deciding the make-up of the council. 2) If the proposals are designed to improve democracy in Liverpool, then surely the leader of the council should no longer be directly and separately elected, but should be appointed by the elected councillors. 3) I very much agree with the proposal to have one election every four years.
