Comment text:

I don't think it's gone far enough! LCC isn't value for money at all. Constantly blaming government for its failing, it's time to revamp the entire system. Move to Proportional representation. Give all the voters a say make the council and the elective representatives work for us not themselves. I've always voted Labour as anything else is a wasted vote . To regain the trust of the people there needs to be a massive change in the system I think the only way is to change the system to PR.
