Comment text:

Unbelievable, do you really need to waste more of our hard earned money that much that you are messing about with ridiculous things like this? It's OK for council and government bodies, you have unlimited money from us. While we are struggling to heat or eat, you are enjoying your regular salary increases and wasting our taxes and resources on expensive fads. Do you realise the actual cost involved in what you are proposing? Of course you don't because it's just play money to you and you couldn't care less. There are so many good honest, worthwhile things you could spend this on. I really detest you all and hope there will be a time in the not too distant future that you are all held accountable for your obvious lack of care for your constituents and your responsibility to them. You all are no better than Joe Anderson.
