Comment text:

thank you for consulting on this matter. Our parish council is submitting comments separately, but i personally feel that the current ward arrangements work well for Pirbright. we have a very close affinity with the ATC Pirbright as part of the military covenant and many military children attend local schools in Pirbright as well as family members being in the football and cricket teams that play for Pirbright in local leagues. Although we are part of Guildford Borough we are also part of the Woking Parliamentary constituency and this works well, as we look in both directions in terms of community links, school catchments and are very well represented by Jonathan Lord MP, who attends village events within the Parish and actively champions our community in national debates.
