Comment text:

I am a resident in [REDACTED] Brighton and am against the proposed boundary changes. This change would impact on community groups that I have involvement with and would split residents within them. Both groups currently have good working relationships with the councillors in our existing ward. If the boundary changes go ahead we will have to forge relationships with councillors in more than one ward. I also feel strongly that our road and local Church and school is part of the Queens Park community. I would welcome the northside of Down Terrace being put into Queens Park Ward.
