### Comment text:

As a resident of Hanover and Elm Grove I am strongly against 'losing' the Phoenix Estate. 1. The Phoenix Estate residents have built an effective community voice and they are clearly expressing a strong desire to stay in HEG. 2. The Community Forum is attended by the Phoenix Estate, local police, Phoenix Art Space, local councillors, members of different political parties other groups of interest and residents from all over the ward. It is an effective, solution-focussed space. 3. Phoenix Estate are closely linked to the Phoenix Art Space. In our last Communities Forum meeting they were planning art activities for the estate children during half term. 4. The road access concern is irrelevant due to low car ownership on the estate and the existence of well used cycle and pedestrian routes.
