### Comment text:

I support the proposed local ward and boundary changes for Brighton & Hove. I live in what is proposed as the new "Round Hill" ward. With two councillors for the new "Round Hill" ward, in theory at least, we should get better representation for the local area than under the current pattern of wards and boundaries. The proposed changes will better reflect the population density distribution across B&H, which is to the advantage of us living in the proposed "Round Hill" ward in that it will give us two councillors with a tighter geographic focus.
