Comment text:

Patcham should not be split between two different wards as this would divide the well established and historic community we have . The boundary between Patcham and Hollingbury in proposal 2 has been incorrectly drawn and many recognised parts of Patcham would be excluded from what would be the new Westdene /Patcham ward and transferred to a new Hollingbury /Carden ward. Patcham and Hollingbury is one community, sharing the same services , community groups, schools , shops and local issues and therefore should be represented together at the council in a single ward . This provides for more effective and convenient representation for residents .
