Comment text:

The location of the split within Patcham will result in the dilution of representation/opinion. I suspect a lot of the new ward may not care about what happens at the newly created fringes after our community has been divided. One of the criteria that the boundary commission use is as follows: "interests and identities, and boundaries should be identifiable. Consider transport links, community groups and facilities, natural or physical boundaries, parishes and shared interests." and also; "We also aim to ensure that the ward boundaries reflect the interests and identities of local communities, as well as promoting effective local government". This proposal fails on all of those for Patcham!
