I'm at [REDACTED] Hill Brow, Hove Park and responding to your request for public comment around the current question of whether there should be a 'Westdene and Hove Park' ward or not. I am personally involved in the many campaigns against the Toads Hole Valley Development which is an issue that I would think would impact both areas. It's very serious and I'm very disappointed they have got planning permission. They hadn't got advice from national highways and this is going to generate 3000 cars on roads. People are going to be trapped in there and King George Avenue will be virtually cut off. There will be big ramifications from this decision that will impact the people of Westdene and Hove Park and there will need to be continued campaigns from residents across Hove Park and Westdene areas for many years which will need a set of councillors to address. I support a 'Westdene and Hove Park' ward and living where I do I can tell you from my perspective the areas are very much intertwined. A lot of our shops and facilities that we use are in Westdene. The carvery at the Sportsman which is very easy to walk to down Tongdean Lane is somewhere we go regularly and my son uses the pay as you go gym at Withdean Stadium at the same location. My number 27 bus also comes from there. The 27 is an amazing bus that is every 15 minutes starting in Westdene. It is not like the 21 bus which is infrequent and only goes once an hour. There are shops in Westdene within walking distance which we use including the specialist wedding shop I went to recently. As I say, the areas are intertwined and a Westdene-Hove Park ward be a sensible idea in my eyes. Thank you and kind regards, [REDACTED].
