### Comment text:

Patcham should not be divided across two wards. The Mackie estate has always been part of Patcham and is separated from Carden/Hollingbury by a hill and the nature reserve. There is no direct road linking the two. People living in the Mackie avenue area need to be able to comment on community issues in the whole of Patcham e.g. Royal Mail development in Vale avenue. There could be a situation with councillors with opposing political views in the different wards potentially dividing our community. The whole of Patcham needs to remain in one ward as it is currently.
