

Brighton and Hove City Council

Personal Details:

Name:

[REDACTED]
[REDACTED]
[REDACTED]

Organisation Name: Local Resident

Comment text:

I wholeheartedly disagree with these changes. I don't want to be labelled as living in Hollingbury &/or Carden. We bought our property in Patcham, this will have a detrimental affect on our property value and I'm also proud to be part of the wider Patcham area and community which all falls under one name, Patcham. We have had no notification of these proposed changes by post nor email which is ridiculous and as I understand it, this process comes around only every 20yrs, in my view this is outrageous this is being progressed under the radar. To rid a community of its community name which is steeped in history is scandalous and coupled with our own council representation being removed, this can't happen and shouldn't happen. I've been teaching my kids about the rich history of our community since moving here of which they are very proud and interested in. This change is a mockery and will cause a divide in our community. These changes shouldn't go through and should be stopped immediately.
