### Comment text:

I very strongly object to the new proposed ward boundaries for Patcham and Hollingbury. I have lived - and loved living - in Patcham for 42 years and I am horrified, and my late husband would have been also, at the idea of the new proposed boundaries and name changes. We only ever wanted to live in Patcham. The idea of all these changes is devastating and I'm convinced that many many residents feel the same way. Place names hold a great deal of importance to residents and the change would not encourage me, for one, to remain living in the place I've known as Patcham all my life and meant so very much to my late husband and myself. I urge you...please do not carry out these changes. Thank you.
