Comment text:

I strongly object to this proposal. Splitting Patcham in half in to two different wards, this would have a detrimental affect on Patcham and its whole community, this would be really bad for our historic village. It would be a better idea to put withdean & westdean together as a ward, rather than splitting a village down the centre and have a disjointed community. The school & our library are on the edge of this proposed split. Patcham would totally lose its idenity and its sence of community if the goes head!
