Good Morning,

I am emailing to voice my opinion on the following...

I do not support patcham and hollingbury ward being divided and instead believe patcham and hollingbury should stay together in one single ward.

Having been a resident of Patcham for 34 years I strongly feel that by dividing into two would have a detrimental effect on the community. Having also seen how the division has been put forward makes little to no sense...as I live in an area of Patcham that would effectively become hollingbury and carden- I would be completely land locked by Patcham. There are no connecting roads into hollingbury from where I live without having to first drive through The whole of Patcham.

This would be a huge mistake to divide in this way!

Many thanks

[REDACTED] Patcham.
