**Organisation Name:** Home owner

### Comment text:

Why are we only finding out about this on social media? It seems to be a common theme. You are trying to keep this from the publics eye. Poor communication. Please can you communicate with the areas effected in a timely and fair manner. We object strongly to this move. The community is not aware. Why is that? Please do not change what we have. Next you will try to move the community / area boundary so they are in line with voting. This could affect prices, school catchment etc which is not fair. This is shocking.
