Organisation Name:

### Comment text:

The proposed plan to dispose of the Patcham ward is simply a way of the council removing any power and removal of the conservation areas which currently restricts Brighton council from building in the Patcham area. Patcham existed long Belford Brighton ever did and should not be allowed to remove Patcham as a ward. This is simply a way for the council to remove any red tape that currently exists around Patcham in a VERY SNEECKY and CROOCKED way!!!!
