Comment text:

As a resident of the Lady Bay area I find the proposal to take away our 'independence' in terms of council wards quite alarming. At present our local interests are catered for by our own councillor(s) and the proposal to merge our ward with another part of West Bridgford will mean our interest will inevitably be diluted as we will not have representation dedicated purely to our area. Lady Bay is unusual in local areas in that it is clearly defined and has a relatively close-knit community. To dilute this by merging with a larger area would be a sad loss. also, I can foresee a clash of interests because of the differing viewpoints of the two areas involved.
