Earlier I submitted some comments. I suggested a name for Lutterell Ward as Greythorn being the central road. I would like to amend that. I have since heard a suggestion of Wilford Hill which I think is much better. Even the bus describes it that way.

My comments, which I have submitted to the Council, are as follows: 1 The LGBC refusal to accept the Council's recommendation to increase Cllr numbers by 2 to 46, given the considerable increase in population, is unfortunate as it leads to more than necessary difficulties in reflecting natural communities. 2 Every effort should be taken where possible to avoid 3 member wards especially in the urban area which leads to less clarity of identity. I agree with Cllr Gowland, my impression is that they tend to be so large that minority voters have less chance of being represented. 3 The map regarding Edwalton does not show the current extent of occupied new builds to the west of Melton Road nor those immediately foreseeable. So I am unsure on the basis for the calculations. 4 I have no objection to the proposed 2 and 1 member wards in West Bridgford. 5 The proposals for Musters have some cogency and return some roads which were part of the ward before the last changes. 6 The LGBC asked about the appropriateness of the title Lutterell. I wonder if Greythorne may be an alternative as this is the name of the main thoroughfare in the area. 7 I do not know enough to suggest options for changing Abbey and Lady Bay/Trent to create 2 member wards but efforts should be made to achieve this. 8 Lady Bay is a distinct community. Would expansion to the area to Holme Pierrepont make sense all lie between the river and the major roads feeding into trent bridge? 9 Re south west Rushcliffe. I agree that West Leake and East Leake are part of the same community and should remain part of the same ward. I suggest that consideration be given to moving Willoughby (currently 457 electors) from Keyworth to Bunny. Regards Cllr Rod Jones
