As a resident of Upper Saxondale I think it would make more sense geographically to go with the original draft proposals which places us within Aslockton & Cropwell ward. Newton and Shelford (under the further draft proposals) are much further away and there is the A52 in between which acts as a boundary. I certainly feel closer to Cropwell Butler than I do Newton for example. However I would add that the overall most important issue in this consultation to me is that all of Upper Saxondale be within one ward and not split over two. Thanks, [REDACTED]
