To Whom it may concern,

Having recently moved to the village I believe it would be irresponsible of councillors to agree to plans to extend the village any further. We loved the village and bought a house here due to its closeness to the city but mainly it's green space and country feel. Which the council have already taken away from. We have already considered moving away if plans for increased housing go ahead.

I agree more housing is needed and everyone deserves the right to shelter and housing. However this comes with additional needs such as schools, shops, better roads, sewage works, flood preventions. This is a MUST.

Extending Ruddingtons boundaries will inevitably mean more housing. It will no longer be a village which it's name prides on. This would be a devastating loss to locals both old and new.

Please take my comments into consideration.

Kind Regards,
