I would like to propose that all of Wynyard village and the new developments at either end of the A689 are incorporated into the Northern Parish district. Currently only have of the village and the Avant/Storey development at the east roundabout are under the Stockton banner. This causing confusion for new residents all the time when they first move to the area which will only continue with the continuing new developments planned. in particular this has caused considerable confusion during local lockdowns and who needs to abide by which laws. When Hartlepool went into extra measures this applied to the Taylor Wimpey and self build area, not the Avant and Storey side. If the whole of the village and park are under one local council then it could help the area to feel more like a complete community. There is a beck to the back of Taylor Wimpey (Amerston Beck) which joins the road leading to Embleton. It is proposed that this is the new boundary line. It would allow for the A689 until the Wynyard Woodland Park walk way to be all under Stockton council
