Organisation Name: Napton on the Hill Parish Council

Comment text:

Proposed boundary changes – Napton Parish Council consultation response Oct 21 Napton Parish Council has considered the proposed boundary changes for our community and that of neighbouring villages. Currently we are part of a ward with approx. 3,000 voters and are served by one local Councillors who is local and who knows the area well. The proposal is to form a larger ward with approx. 6,000 voters who would be served by 2 Councillors. A larger ward would potentially result in a loss of local representation and would be a retrograde step in terms of local decision making and empowerment. We can see no logic to this proposal and would prefer to retain the status quo. The proposed ward would see us joined with other communities with whom we have no natural affinity in terms of cultural or geography and therefore we strongly reject the proposals
