

## Our Recommendations

The table lists all the wards we are proposing as part of our final recommendations along with the number of electors in each ward. The table also shows the electoral variances for each of the proposed wards which tells you how we have delivered electoral equality. Finally, the table includes electorate projections for 2027 so you can see the impact of the recommendations for the future.

# Derby City Council

## Final Recommendations on the new electoral arrangements

### Who we are

- The Local Government Boundary Commission for England is an independent body set up by Parliament.
- We are not part of government or any political party.
- We are accountable to Parliament through a committee of MPs chaired by the Speaker of the House of Commons.
- Our main role is to carry out electoral reviews of local authorities throughout England.

### Electoral review

An electoral review examines and proposes new electoral arrangements for a local authority, including:

- The total number of councillors representing the council's electors ('council size').
- The names, number and boundaries of wards or electoral divisions.
- The number of councillors for each ward or division.

### Why Derby?

- The Commission has a legal duty to carry out an electoral review of each council in England from 'time to time'.
- Derby City Council has not been reviewed since 2001 and the Commission has therefore decided that it should review Derby in advance of the elections in 2023.

### Our proposals

- Derby City Council currently has 51 councillors. Based on the evidence we received, we recommend that 51 councillors should serve the council in the future.
- We believe our final recommendations meet our statutory criteria to:
  1. Deliver electoral equality for electors
  2. Reflect community interests and identities
  3. Promote effective and convenient local government

## Summary of our recommendations

We have considered all of the submissions we received during our consultation on our draft recommendations.

The final recommendations propose that Derby should have 51 councillors. This is the same number of councillors as there are now.

Those councillors should represent 18 wards; three two-councillor wards and 15 three-councillor wards. This is one more ward than there is now.

The boundaries of all but four wards have been changed in our final recommendations.

An outline of the proposals is shown in the map to the right. A detailed report on the recommendations and interactive mapping is available on our website at: [www.lgbce.org.uk](http://www.lgbce.org.uk).
