Comment text:

I live in Peopleton. We have been well served by our representatives in the Upton Snodsbury ward. This is a collection of similar villages, none of which is considerably bigger or substantially different in character. These villages share concerns and problems, some of which will be different from those in more urban areas, and these concerns can be expressed by our representative. In a more mixed ward, such as is shown on the proposed map, with Peopleton awkwardly shoe-horned into a ward with Drakes Broughton, the concerns of the area with greater population will necessarily dominate and the more rural voice maybe squeezed out. I therefore would prefer for Peopleton to remain in the Upton Snodsbury ward.
