### Comment text:

Please ensure that existing extended communities and geography are taken into account in any changes. The recent proposed changes which were not carried forward placed our community of Falstone out of Tynedale and the Hexham ward and put us in a ward of a town/area of which we are not a member (was it Berwick?). Falstone is our community, Bellingham is our nearest town, and Hexham is our nearest large town. That is where our associations are, and how it must be reflected in any future design (as it is reflected in the current design).
