Comment text:

There is currently a difference between the parish boundary and the Shropshire ward. This makes no sense and is confusing to residents. Broseley is a small town surrounded by rural space and residents on its north-eastern boundary find themselves currently served by a different Shropshire councillor to the rest of the town. The number of electors involved would make little difference to the balance. My preference would be for the parish division of Broseley Wood to be included in the Broseley electoral division.
