Comment text:

I live in Broseley. There is a border between the Broseley Wood ward and the Broseley West ward which zig-zags it's way around the properties on the other side of the road to my property in a completely arbitrary way which is confusing for residents and makes no logical sense. In my opinion it would make good sense to combine the Broseley and Broseley Wood wards. Furthermore as there is also confusion between the arbitrary division between the Broseley West and Broseley East wards it would make good sense to combine all 3 wards into one Broseley ward.
