Comment text:

Regarding the proposal to move the Hodnet Ward area North Shropshire boundary to under Telford and Wrekin, and not remaining under Shrewsbury/North Shropshire. Hodnet ward will be significantly affected . I strongly object. It is my opinion that all "SY" postcodes should remain under Shrewsbury and be protected against such a violation. Perhaps it would make more sense if SY areas such as Marchamley move to a ward with Prees and Wem who also have SY postcodes. The BCE (Boundary Commission for England) show a lack of understanding of community dynamics and residents' feelings, these should be considered, protected and acted upon. Please note I do not agree to you contacting me but was forced to tick the box against my will to be heard
