Denham Parish Council response to Further Draft Recommendations of the LGBCE

Denham Parish Council (DPC) welcomes the revised arrangements as proposed in the February 2023 further consultation. In particular the retention of New Denham in the Denham Ward properly reflects the strong community and geographic links that the area has with the other parts of the wider Denham.

The proposal to link Denham parish with Gerrards Cross parish into a single ward should achieve reasonable electoral equality. However DPC suggests that the ward should be entitled the 'Denham and Gerrards Cross Ward' to properly reflect the fact that the parishes are of similar electoral size together with being grammatically correct.

DPC also welcomes that this consultation has dispensed with the thought of splitting the Parish Council into separate wards, that proposal was unwelcome, unnecessary, and contrary to the current and proper working of the administration.
