Comment text:

Dear Boundary Commission Reviewers

As a resident of Bull Lane I would like to lodge my approval of the latest proposal with the boundary established along Austenwood Common and Kingsway. I think this is consistent with the ambition to preserve electoral equality, and certainly for me (who was previously affected) it better reflects my attachments/community identity whilst providing sufficient local councillor representation for both wards. In the previous public consultation round there was an overwhelming view that the total number of councillors should be reduced so this seems a solution consistent with previous comments also.

Kind regards,

[REDACTED]
