Related subject: Boundary between Gerrards Cross and Chalfont St Peter

I strongly support the latest proposals from the Boundary Commission which are aligned at supporting the community identify of Gerrards Cross.

The latest proposal listens to residents, is well reasoned and protects the community identity of Gerrards Cross, whilst keeping all the local clubs that identity with Gerrards Cross in the same ward and additionally addresses the voter numbers.

I live a 25 minute walk from CSP and a 10 minute to GX. I have a strong affinity with the GX community having gone to Maltmans Green school, with my brother going to Gayhurst and our family living inside the boundary signs for GX.

We have always felt as a family that we are too distant to CSP and it was strange that Austenwood Common was within the CSP ward. I hope that the latest boundary proposals are endorsed as they clearly address an issue that has concerned residents this side of Austenwood common for too many years.
