Comment text:

I understand that there is a proposal to merge Fulmer parish with that of Wexham. There is no fellow feeling between Fulmer and Wexham and I know a number of Fulmer residents are upset by the association. If there is a good reason for voting wards of a larger size, then there is much greater logic in associating with an adjoining parish with similar interests. Most Fulmer residents use Gerrards Cross for shopping and travel (Gerrards Cross mainline) and for the community facilities there, including the Library and churches. There is no similar 'pull' towards Wexham. If hearing the voice of residents is important, then there is greater value in combining those voices with those who share amenities and where there are greater social bonds, I urge you to consider either leaving Fulmer to itself or merging with Gerrards Cross.
