**Comment text:**

I see that the village of Cottingham is being considered in the boundary changes to be aligned to Kettering. As a family we think that as we are literally within walking distance of Corby and we have to go through Corby to get to Kettering it seems ridiculous to have us under the Kettering boundary. We are also very happy being within the Corby boundary and think that Corby represents our best interests. In short we would be very unhappy were things to change.
